For 34 years, this is the book Californians have turned to when facing divorce. Written by Ed Sherman, the acknowledged expert in the field, How to Do Your Own Divorce in California has been an industry success story not only because the information is current and reliable, but also because it has resulted in 60 percent of the state's divorces going through the courts without the help of attorneys, saving literally billions in legal fees. Part one explains the laws on dividing property and settling issues of custody, visitation, and child support. Part two covers the court process step-by-step - how to complete all of the forms and file them with the court clerk; the waiting periods to expect between steps; how to get through the court appearance or even avoid it altogether; and more. This classic guide comes with a CDROM and resouces, as well as blank tear-out copies of all the court forms needed for an uncontested dissolution.
